# Event Recap

Sponsored by:

ET@RNAL

eternal.plus

## How the day kicked off:

Los (@downloadlos) tee'd us up with a live-code demo where he rebuilt his viral iOS AI-powered dating app in Swift. After talks, hackers formed teams and began building.

Bellies were filled with hackersnacks, coffee, & pizza at lunchtime. It was primetime for collaboration as builders learned new tools and helped to deploy eachother's projects

July 27<sup>th</sup>  
2024

# Winners

## TEAM:

MOUNTAIN

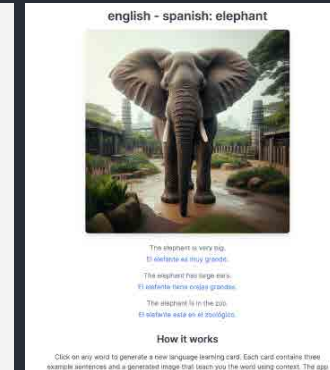

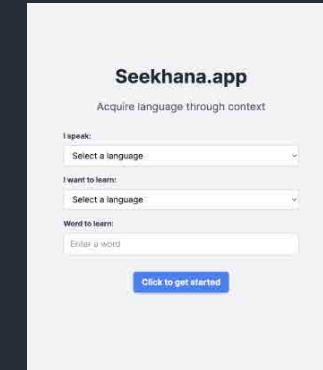

Seekhana

Gonzalo Lorca  
Ashish Rai  
Anthony Castrio

**Seekhana** *Infinite exploration of new vocabulary for language learning*

Seekhana generates an image and three translated sentences for any input word you want to learn, then you can click on any other word and continue the learning journey

**live at:** [Seekhana.app](https://seekhana.app)

## TEAM:

WATER

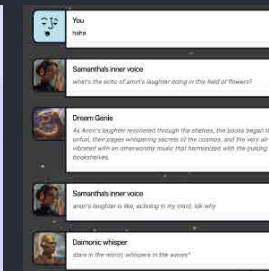

Open Souls

Tom di Mino

**Dream-Daimon** *Conversational AI with a subconscious, memories, and dreams*

It's for anyone who wants to interact with human-like AI that's capable of evolving the more you interact with it.

**live at:** <https://dream-daimon.net>

## TEAM:

OCEAN

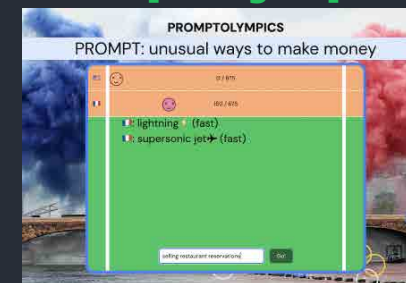

Promptolympics

Kyle Qian  
Khoi Le

**Promptolympics** *Concept Olympics relay race*

Compete in providing the best examples for given concepts in a 1v1 matchup. Better answers give you longer strides towards the finish line against your opponent.

## TEAM:

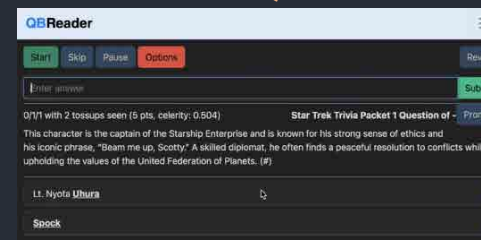

MAGMA

## Honorable Mention

KP (Kshitij Parashar)  
Sahil Nadkarni

**Infinite Quizbowl** *Infinite spin of classic Wordbowl trivia game*

Infinite Quizbowl is for trivia freaks. Players provide a theme as prompt and the game will ask all the interesting questions with hints in classic wordbowl style.
